Industrial R&D Cooperation Program

Taiwan-Israel R&D Cooperation Program

A bilateral framework providing financial support for collaborative industrial R&D Projects between Taiwan and Israeli companies

2020 ONLINE Events

Seminar for Taiwan-Israel R&D Collaboration Program

Theme: Semiconductor

Taiwan's domestic production plants are operating normally under the control of the epidemic. In response to the post-epidemic market demand, the international market has turned to Taiwan's semiconductor industry to place orders in order to smoothly and quickly obtain the IC chips required by the market, driving the continuous upward development of the global and Taiwanese chip design, manufacturing, and packaging and testing industries.

Hosted by Taiwan's MOEA/ITRI, Israel Innovation Authority, and Startup Nation Central, this seminar will introduce Taiwan-Israel R&D Cooperation Program: A bilateral framework providing financial support for collaborative industrial R&D Projects between Taiwan and Israeli companies. Furthermore, Mr. Ronen Heldman, CEO of Tip Ventures from Israel, will share his insights on Taiwan-Israel Cooperation Platforms associated with Semiconductor industries.

Date: 30 November 2020

Theme: Semiconductor

Agenda: (shown as below)

Time	Activity	Host/Speaker
14:30-15:00 (TW Time) 08:30-09:00 (IL Time)	Register	
15:00-15:05 (TW Time) 09:00-09:05 (IL Time)	Opening	Dr. Ma-Tien Yang Deputy General Director Industry, Science & Technology International Strategy Center (ISTI) Industrial Technology Research Institute (ITRI)
15:05-15:25 (TW Time) 09:05-09:35 (IL Time)	Taiwan-Israel R&D Cooperation Program	Ms. Adi Maller Program Manager Israel Innovation Authority

Taiwan : Israel

Industrial R&D Cooperation Program

15:25-16:05 (TW Time) 09:25-10:05 (IL Time)	Taiwan-Israel Semiconductor Cooperation Platform and Business Opportunity	Mr. Ronen Heldman CEO Tip Ventures
16:05-16:25 (TW Time) 10:05-10:25 (IL Time)	Q&A	Dr. Ma-Tien Yang Deputy General Director Industry, Science & Technology International Strategy Center (ISTI) Industrial Technology Research Institute (ITRI)

Speaker

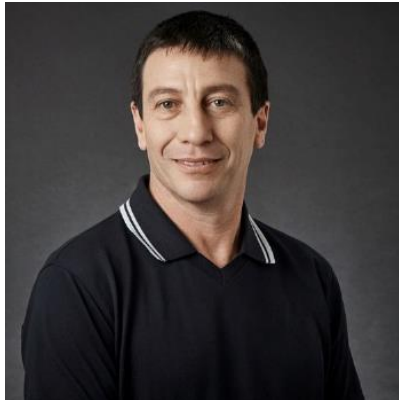

Adi Maller

Program Manager of Israel Innovation Authority (IIA)

Experienced Project Manager with a demonstrated history of working with strategic assets to Israel and international partnerships. Skilled in building relations and strategic connections. Strong program and project management professional with a Master of Business Administration (M.B.A.) focused in Technology and Innovation from Technion - Israel Institute of Technology.

CEO, Tip Ventures
CMO at InfinityAR (Acquired by Alibaba)
CEO at Sightec Ltd.
VP Marketing at N-trig Ltd. (Acquired by MSFT)
VP Marketing at PowerDsine (NASDAQ: PDSN)
PM, R&D lead at RAD Data Communications
College of Management Academic Studies - MBA
Technion - Israel Institute of Technology - Computer Engineering

Dr. Ma-Tien Yang
Deputy General Director, Industry Science and Technology International
Strategy Center (ISTI)
www.itri.org.tw/
Deputy General Director, Industry Science and Technology International Strategy
Center (ISTI), ITRI, Taiwan, 2018.08~Current

Taiwan : Israel

Industrial R&D Cooperation Program

Acting/Deputy General Director, International Center, ITRI, Taiwan,
2017.09~2018.07

Business Manager/Deputy Division Director, Mechanical Labs., ITRI, Taiwan,
2009.09 ~2017.09

Department/Business Manager, Mechanical Labs., ITRI, Taiwan, 2006.1~2009.08

Department Manager/Researcher, Center for Aerospace & Systems Tech., ITRI,
Taiwan, 2004.08~2005.12

Technical Manager/VP, Taiwan Auto-Design Co., Taiwan, 2000.10~2004.08

Field Engineer, Taiwan Chuan-Yuan Construction Co., Taiwan, 1983.10~1987.03
